

SITUATION OVERVIEW

Binga district in Matabeleland North Province, Nsungwale Area, under Chief Sinakoma, experienced heavy rains which resulted in some life threatening floods. The floods occurred in the early hours of Monday 10 February 2020. The flooded area is a confluence point of four rivers namely **Simbwambwa, Siakanda, Namapande and Manyenyengwa.**

As a result the road connecting Binga and Siabuwa has been damaged and is currently closed. Chininga Bridge connecting Nsungwale and Siabuwa and linking with Karoi, Gokwe, and Kariba needs urgent rehabilitation

IOM managed to support the DCP with a comprehensive registration of all affected individuals, along with officers from the PA, Red Cross, Save the Children, Action Aid.

Through 16 focus groups discussions and HHs assessments, accurate and timely collection and dissemination of data was provided regarding the internal displacement in the affected area.

HIGHLIGHTS

215 HH affected
33 Totally destroyed
34 Partially destroyed
16 Villages Assessed
33 Diarrhea cases

16 Villages were assessed (Maneta 1-2-3-4-5-6-8-10-11, Chinomba 2,3 y 4, Simuchembu 9, Chinga 1, Siyakubulabula)

Due to the heavy backlash a total of **215 HHs were affected (967 individuals)**. Out of the affected, 42% were adults (409) and 58% (588) were children. In addition, 53% (512) were females and 47% (455) male.

Among the most vulnerable groups, 165 individuals were consider, 5% Disabled, 21% Widow, Single parents, 19% Orphans, 25% Children under 5, 6% Elderly and 22% Chronically ill.

33 were totally destroyed (15%) , 34 partially destroyed (16%) and 148 HH (69%) had crops, fields and items affected.

All the houses with damaged infrastructure are on the water way and in need of relocation, their field crops were also washed away. Main crops were: Maize, Sorghum, Millet, Beans, Cotton, Pumpkins, Groundnuts and Okra.

Approximately 98% of the interviewed households do not have toilets and they are practicing open defecation.

OVERVIEW

RELOCATION PLAN

Government identified a site for a temporary IDP camp in close collaboration with Chief Siabuwa, Chief Sinansengwe and Chief Sinakoma.

The land is located in higher ground (Ward 5) closer to Nsenga primary school. Unfortunately, this school was made out of mud and dagga and was partially affected as well, leaving 2 unfinished classroom block, at window level .

Land clearing is starting today, and infrastructure is being set into place, bathrooms, washing areas, rubbish bins, and clean water supply as priorities before setting up emergency shelter.

Ministry of Public works is conducting the site planning with the technical support from IOM.

IOM will mobilize partners to provide service in the IDP camp, wash infrastructure and kits, health, Mental health and psychosocial support (MHPSS), education, food aid, protection.
